REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a process for selective removal of metal cladding positioned only along one edge of an airfoil by selectively treating the cladding only along the one edge of the airfoil.
2. The closest prior art Lada et al (4,339,282) disclose a process of removing an aluminate coating from an airfoil such as turbine blade and the removal of the coating is not selectively for only one edge of the air foil but of it's entirety.

Lada et al also do not teach that the turbine blade with cladding is selectively treated only along the one edge of the blade with a chemical etchant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
